Safety Corner

No Engine Idling

Please be reminded that as per state law you are required to turn off your vehicle engine after 3 minutes of idling outside of Travell-
or anywhere.

Sadly, it's becoming routine to see people idling here at our school for 20 minutes or more on a daily basis.

It pollutes the air in the surrounding area and is a significant health hazard to the neighbors and the students.

This means even in the 30 degree weather which is fast upon us, we will need to remember to dress warmly and turn OFF our engines outside of the school and anywhere else we wait, at pick up and drop off time.

As a reminder this is a state regulation and it is an offense for which a ticket can and will be issued moving forward.

Thanks for working together to make Travell as safe as t possibly can be!
